Since dogs are such social animals, Lucky Dogz is a service that provides dogs the opportunity to tap into their canine instincts and stimulate exercise, while supplying Socialization they enjoy.

Lucky Dogz is an option that brings dogs together to play and socialize, which your dog will look forward to! It will also benefit dogs that may experience anxious or boredom behaviors when left alone for extended periods of time.

This is an excellent outlet for high energy dogs in need of exercise.

Timid dogs will have the opportunity to practice their social skills and thrive in a safe, monitored environment.
